

# Our qualification pathways

## Nationally recognised qualifications

### Front Line Colleagues

Level 3 Team Leader Supervisor

Level 3 Lead Adult Care Worker

Level 2 Adult Care Worker

Apprentices looking to work towards these qualifications should demonstrate a desire for a future leadership or management-based role, with the ambition to eventually lead and develop their own team.

The apprenticeship standards “knowledge, skills and behaviours” are developed over the course of the programme through scheduled learning interventions with employer mentors and Lifetime Regional Trainers.

### Administrators

Level 4 Business Administration

Level 3 Business Administration

These qualifications have been developed to recognise and reward learner achievements within the business administration environment.

The content has been designed in consultation with employers to ensure that at the end of the qualifications, learners are occupationally competent in the workplace.

### Management

Level 5 Care Leadership and Management

This qualification is aimed at advanced practitioners in Health and Social care, and provides learners with the skills and knowledge required to manage and lead others.

The pathway covers a wide range of topics including; safeguarding and protection, managing care services, supporting development, partnership working and promoting and developing best practice.
