Meet the people we support

Elm Tree House is home to a diverse group of adults, who are currently male, each with their own needs, preferences and personal goals. Some individuals may at times display behaviours that challenge, and we work in a person-centred way to help them build confidence, develop new skills and feel empowered in their daily lives.

At Elm Tree House, we support LT, originally from Poland, who had been unable to visit family for many years due to complex visa and passport issues.

Being separated from his loved ones for such a long time had a significant impact on both him and his family. Our team worked closely with the relevant authorities to successfully resolve these issues and supported him to plan a trip to Poland, with two staff members accompanying him.

LT has now returned to Poland twice in the last three years, helping him reconnect with family and his cultural roots. This has had a hugely positive impact on his emotional wellbeing, confidence and quality of life. It was a great success and a positive experience for LT and his family and we are proud to have helped make it possible.
